

"Above the coast road, on a rocky outcrop, is the excellent restaurant, La Creperie, with spectacular views from the terrace across the Bay of Jounie."

"Creperie Kaslik Tel: (09) 912-491, (09) 914-886

Jounie is awash with restaurants, but most are awful. The exception is La Creperie, housed in a classically beautiful Ottoman house with superb views across the bay offered by its position atop a small cliff. The service is immaculate, with penguin-attired waiters and waitresses. It serves great steaks and wines, as well as Lebanese dishes, but is worth a visit just for the view." **Source: Explore Your World : The Discovery Channel.**

"La Creperie, Kaslik (on the right as you begin to descend into Jounieh) Set in a beautiful Ottoman period building with wonderful views out over the bay of Jounieh. As the name would suggest , crepes (sweet or savoury) are the house speciality here, though they also serve raclette (actually jacket potatoes with melted cheese), steaks, sea food, salads and various dishes." **Source: Lebanon Handbook by Ivan Mannheim**
